Education

North west University

Bachelor of Science in Information Technology
(In Progress) 2022 - 2026

National Senior Certificate (NSC)

Subjects:

- Mathematics
- Physical Sciences
- Life Sciences
- Geography
- English
- Sesotho
- Life Orientation

CERTIFICATIONS

CISCO NETWORKING ACADEMY – GETTING STARTED WITH PACKET TRACER

- GAINED PRACTICAL EXPERIENCE IN NETWORK SIMULATION AND CONFIGURATION
- LEARNED BASICS OF NETWORK TOPOLOGIES, DEVICES (ROUTERS, SWITCHES), AND IP ADDRESSING
- DEVELOPED FOUNDATIONAL SKILLS IN NETWORK TROUBLESHOOTING

Language

- English
- Sepedi
- Sesotho
- Tshivenda
- isiZulu

PROFESSIONAL SUMMARY

Motivated and detail-oriented final-year Bachelor of Science in Information Technology student with practical experience in full-stack web application development, database design, computer networking, and IT infrastructure. Skilled in C#, ASP.NET, HTML, CSS, JavaScript, SQL/MySQL, and enterprise network configuration, with hands-on experience designing and developing software solutions, implementing Wi-Fi and network infrastructure, and troubleshooting technical issues. Passionate about applying technology to solve real-world business challenges and continuously expanding technical expertise. A quick learner with strong analytical, problem-solving, and teamwork skills, seeking an internship or graduate opportunity to contribute to innovative IT projects while gaining valuable industry experience.

TECHNICAL SKILLS

- Programming Languages: C#, Java, Python, JavaScript, SQL, HTML5, CSS3
- Full-Stack Development: ASP.NET Web Forms, Front-End & Back-End Development, Responsive Web Design
- Databases: MySQL, SQL Server, Firebase Realtime Database
- Networking: TCP/IP, VLAN Configuration, Wi-Fi Deployment, Network Troubleshooting
- Tools & Technologies: Visual Studio, Visual Studio Code, Git, GitHub, MySQL Workbench, Cisco Packet Tracer
- Professional Skills: Problem Solving, Debugging, Teamwork, Communication

PROJECT EXPERIENCE

• THAMAS TECH WORLD Portfolio Website

-Designed and developed a responsive full-stack business portfolio showcasing ICT, networking, web development, and smart surveillance solutions using ASP.NET, HTML, CSS, JavaScript.

• Hospital Management System (In Progress)

-Developing a full-stack healthcare management system with patient, staff, appointment, and medical record management using C#, ASP.NET, and MySQL.

• Blood Bank Management System

- Developed a web-based application for donor registration, blood inventory management, and secure database integration using ASP.NET and MySQL.

• Car Rental Management System

- Built a vehicle rental management system with customer, booking, and payment management features backed by a relational database.

ADDITIONAL INFORMATION

- Strong analytical and problem-solving abilities
- Ability to work independently and in a team environment
- Eager to learn and adapt to new technologies
